Nexus Adhesive Remover

TECHNICAL DATA SHEET

DESCRIPTION

Nexus Adhesive Remover is a non-flammable, solvent cleaner designed to remove hard-to-clean compounds and old, dry flooring adhesive.

Application

Apply directly to dry adhesive with brush, broom or mop.
Distribute the Adhesive Remover to required areas.
Allow a 2 to 5 minutes for the Adhesive Remover to soak into the old, dried adhesive.
Use a scrubbing brush or scrubbing pad to agitate the surface.
A sharp scrapper maybe required to help remove thick areas of old adhesive.

RINSE

Once the above is done, rinse using clean water with a mop or rag.
A second coat of adhesive remover maybe required for hard to remove dried adhesive.

DRY

Allow the floor to become dry again prior to the application of any fresh adhesives. Grinding of substrate is also recommended prior to application of Adhesive.

Note: Always carry out your own test to confirm suitability of this product with your application. Additional information on physical properties, health hazards, storage, handling and transport is available in the Safety Data Sheet (SDS), available on request.
